

easy**energy** focusses the value added chains of its business units and renders them consequently to an optimum within the economically attractive and future-oriented renewable market segment of project development and implementation.

Our core business consists of:

- **Wind Energy**
- **Bioenergy**
- **Geothermal Energy**
- **Projekt Financing – Financing Through Shares**

We are interested in and searching for new renewable energy projects

We have worked out particular questionnaires which help us to evaluate a project. Should you wish to introduce one of your projects to us or wish to invest in one of the future-oriented projects that we offer, you may contact us via e-mail, fax or post. Just click the below line, proceed with the download of the questionnaire and complete as much of the form as possible:

>>> [Questionnaire Wind Energy](#)

>>> [Questionnaire Biomass](#)
